**Hello** I'm a digital product designer that thinks in systems. I specialize in product strategy and visual design, and thrive in collaborative, diverse product spaces.

<b>Experience</b>	<b>Lazer</b> UI/UX Designer <i>Jan 2021 – Current</i>	Designed for a telecommunications dashboard targeting enterprise users. Created assets and frequently communicated with stakeholders.
	<b>Daybreak Labs</b> Product Designer <i>Nov 2021 – Apr 2022</i>	Collaborated on an AI-powered image generator mobile application. Delivered mocks, flows, and design system components for a clothing resale app.
	<b>Square</b> Product Design Intern <i>May – Aug 2021</i>	Led a redesign for analytics reporting to define projects and direction in company planning. Conducted user testing for admin and consumer product experiences
	<b>Facebook</b> Product Design Intern <i>Sep – Dec 2020</i>	Iterated on designs for lightweight ad experiences impacting 140 million small businesses. Consulted research reports and established success metrics to guide decisions
	<b>Microsoft</b> UI/UX Design Intern <i>Jan – Apr 2020</i>	Experimented and launched new interaction patterns for a news reading app on dual screen devices. Coordinated efforts with product managers, designers and developers across the company to ensure consistency
	<b>Reebee</b> Product Design Intern <i>May – Aug 2019</i>	Built an onboarding process with custom illustrations and spearheaded a redesign of the mobile home screen to introduce new revenue streams

**Education** **University of Waterloo 2017-2022**  
Systems Design Engineering (B.ASc), Minor in Cognitive Science

Systems thinking that scales with design at the center of technology, business, and human behaviour

**Skills** Figma, Sketch, Principle, Illustrator  
Systems thinking, information architecture, design systems, journey mapping
